

Practice Merger

Dear Patient

July 2017

Park End and Coach House surgeries have shared premises at Bridgewater house since 2006. To further improve patient care and increase the range of services that we can provide, the two practices are planning to formally merge into one larger GP practice from the 1st April 2018.

This is a positive change and will mean you have a wider choice of GP's and nurses available who have various areas of clinical expertise and interests.

With effect from 1st July 2017 we are going to start working on some small joint initiatives. As part of this process we will be sharing access to all patient records across both surgeries.

We are working on compiling a list of frequently asked questions which we will leave on reception and be posted on our website. This will be updated as and when we have further developments.

If you have any questions, please contact:
